Nifty opened on a subdued note but witnessed selling pressure in the latter half of the session which led nifty to close in red. On the daily chart we are observing that prices have closed below the upward gap area in the range of 17622 to 17674 and formed a bear candle. In coming trading session if Nifty for first hour trades below 17511 level then it may test 17400 - 17300 levels. On the upside, 17650 - 17730 levels may act as resistance for the day.

Broadly, going forward 50-daySMA (17438) on daily closing basis would remain crucial support level. Hence cautiously positive approach should be adopted at current level.
