Market Technical Outlook

On 03/12/2018 markets opened higher traded in a narrow range with choppiness but finally managed to close with marginal gains. On the sectoral front Realty, Power, Metal and Telecom ended on the gainers side whereas Healthcare, Auto and Capital Goods ended on the losing side. The advance decline ratio was in favour of advancing counter (Advances = 1321/Declines = 1263).

Pattern Formation: On the daily chart we are observing two consecutive spinning tops which gives small clue that the prior uptrend is losing breath.

Outlook: We maintain our weekly stance that on daily closing basis 10903 remains strong resistance. In coming trading session if Nifty trades below 10840 levels then it may test 10800 – 10770 levels. On the upside, if Nifty trades above 10903 then Nifty may test 10950 – 11000 levels.

We still maintain our stance that one needs to adopt cautiously positive approach at current levels.
