Market Technical Outlook

Nifty opened up with a gap traded in a narrow range with positive bias to close in green. On a daily chart, we are observing an upward gap area in the range of 11428 to 11452. Normally upward gap areas act as support for prices going forward. Further, we are observing that prices are trading in the supply zone of 11446 to 11618 (shown above in the graph in pink color). In coming trading session if prices trade above 11580 levels then it may test 11618 – 11680 – 11700 levels. On the downside, 11400 - 11300 levels may act as support for the day.

We still maintain our stance that the trend is down and pullback rally is in offing and selling may emerge. Hence one needs to be cautious at current level.
