Nifty opened higher and momentum on the upside intensified as the day progressed which led the nifty to close in green On the daily chart; prices have closed above the 16030 level and has activated the Bullish engulfing candlestick pattern. Hence momentum on the upside is likely to continue. In coming trading session if Nifty for first hour trades above 16420 level then it may test 16530 - 16600 levels. On the downside, 16230 - 16150 levels may act as support for the day.

We continue to maintain our stance that the trend remains down and pull back rallies are likely to attract selling pressure. Hence, one needs to adopt cautiously positive approach at current level.
