Nifty opened lower, initial traded with negative bias but witness upside momentum in the latter half of the session to close in green. On the daily chart, prices are trading below the downward sloping trendline shown above in the graph. Further, it has almost test the upward gap area of 16418 to 16447 by making a low of 16470 and has close well above it. In coming trading session if Nifty for first hour trades above 16700 level then it may test 16760 - 16820 levels. On the downside, 16520 - 16410 levels may act as support for the day.

We continue to maintain our stance that the trend remains down and pull back rallies are likely to attract selling pressure. Hence, one needs to adopt cautiously positive approach at current level.
