Nifty opened on a subdued note and momentum on the upside intensified as the day progressed which led the Nifty to close near days high. On the daily chart, prices closed above the downward sloping trendline shown above in the graph. At present the immediate resistance is at the 200-days SMA (16974). In coming trading session if Nifty for first hour trades above 16890 level then it may test 16974 - 17050 levels. On the downside, 16750 - 16640 levels may act as support for the day.

Since, prices have closed above downward slopping trendline and any daily close above 200-days SMA (16974) would intensify the upside momentum. Hence, one needs to adopt cautiously positive approach at current level.
