Market Technical Outlook

Nifty, opened higher but was unable to sustain the opening gains and selling intensified as the day progressed which led nifty to close in red. We maintain our stance that on the daily chart, we are observing that prices have almost tested the lower trendline of the falling channel which is likely to act as support. Further, 16900 – 16800 is a strong demand zone, hence a bounce cannot be ruled out from those levels. In coming trading session if nifty trades below 16900 level then it may test the demand zone of 16800– 16700 levels. On the upside, 17150– 17230 levels may act as support for the day.

We still maintain our stance that prices for three consecutive trading session has convincingly close below the rising 200-days SMA (17449). Hence, one needs to adopt cautious approach at current level.
