Nifty opened gap up and traded in a narrow range, but in last hour we have seen sharp recovery which leads to close in green. On the daily chart, we are observing prices have tested 200 SMA but still not able to close above that, which indicate that consolidation can continue. In coming trading session if Nifty for first hour trades above 17250 then it may test 17325 - 17400 levels. On the downside, 17120 - 16950 levels may act as support for the day.
