Market Technical Outlook

On 29/10/2018 markets opened higher and momentum on the upside intensified as the day progressed which led the indices to close near days high. On the sectoral front Healthcare, Realty, Capital Goods, Bankex and Metal led the rally. The advance decline ratio was in favour of advancing counter (Advances = 1816/ Declines = 767).

Pattern Formation: On the daily chart, we are observing a strong bull candle which suggests further upside momentum.

Outlook: The current price action suggests that a pullback rally is in offing. In coming trading session if Nifty trades above 10280 level then it may test 10350 – 10370 levels. On the down side, 10200 – 10150 levels may act as support for the days.

We maintain our weekly stance that one needs to adopt cautiously positive approach toward the markets.
