Market Technical Outlook

The Nifty opened down with a gap and momentum on the downside intensified as the day progressed which led nifty to close deep in red. On the daily chart, we are observing a downward gap area in the range of 26151 - 26134. Normally, downward gap area act as resistance for the prices. In coming trading sessions, if Nifty trades below 25794 then it may test 25700 - 25630 levels. On the upside, 25900 - 26000 levels may act as resistance for the day.

We maintain our stance we may witness time wise consolidation or minor correction from current level. However, the trend remains up hence at lower level again buying is likely to emerge. Hence, one needs to adopt a positive approach at the current level, as stock-specific activity is likely to continue.
