Market Technical Outlook

The Nifty opened higher, trade with volatility and finally managed to close in green. On the daily chart, we are observing that prices faced resistance at the 10-day SMA (23133) which also coincide with downward gap area of 23050 to 22786 which we had mentioned in our earlier report. In coming trading session if nifty trades below 22900 level then it may test 22860 - 22750 levels. On the upside, 23050 - 23120 levels may act as resistance for the market.

We reiterate our view that prices are making lower lows formation which is sign of weakness Hence, one needs to adopt cautious approach at current level.
