Market Technical Outlook

The Nifty opened higher and traded with positive bias throughout the day. On the daily chart, we are observing prices closed above 100-day SMA and near to 50-day SMA, which indicates we can see positive momentum continue with stocks specific action. In the coming trading session if nifty trades above 24520 level, then it may test 24580 - 24650 levels. On the downside 24405 - 24350 levels may act as support for the day.

Since prices are trading above the 100-days SMA, one needs to adopt a cautiously positive approach at current level.
