Market Technical Outlook

The Nifty opened lower, traded with negative bias throughout the day to close in red. On the daily chart, we are observing a narrow range body formation which suggests indecisiveness prevailing at current level. In coming trading session if nifty trades above 22430 levels then it may test 22500 - 22610 levels. On the downside, 22200 - 22100 levels may act as support for the day.

Since prices are trading well below the 50-days SMA (22960) one needs to adopt cautious approach at current level.
