The Nifty opened on a subdued note but witness selling pressure during the day to close in red. On the daily chart, we are observing that prices have close within the demand zone of 23893 - 24472. In the coming trading session if nifty trades above 24170 then it may test 24250 - 24320 levels. On the downside, 24030 - 23960 levels may act as support for the day.

We still maintain our stance that 23800 on daily closing basis is now a make or break level. As long as nifty holds 23800 on daily closing basis there is high probability that momentum on the upside may continue.
