The Nifty opened lower traded with choppiness but finally managed to close on a flat note. On the daily chart, we are observing that prices are trading within the demand zone of 23893 – 24472. In the coming trading session if nifty trades above 24185 then it may test 24250 – 24320 levels. On the downside, 24020 – 23970 levels may act as support for the day.

We still maintain our stance that 23800 on daily closing basis is now a make or break level. As long as nifty holds 23800 on daily closing basis there is high probability that momentum on the upside may continue.
