Market Technical Outlook

The Nifty opened down with a gap and traded with negative bias throughout the day to close in red. On the daily chart, we are observing a downward gap area in the range of 23334 to 23340. Normally down gap area act as resistance for the prices. In coming trading session if nifty trades above 23140 level then it may test 23190 – 23310 levels. On the downside, 23000 – 22900 levels may act as support for the prices.

Since prices are still trading below the rising 200-days SMA (23949), one needs to adopt cautious approach at current level.
