Market Technical Outlook

The Nifty opened down with a gap, and the bearish momentum intensified as the session progressed, leading the index to close in the red. Typically, such gap-down areas (25,340 to 25,322) tend to act as resistance for prices going forward. Currently, the index has closed below both the 10-day and 20-day Simple Moving Averages (25,434 – 25,239), indicating a shift towards a short-term bearish trend. If the Nifty breaks below the 25,110 mark, it may further test the 25,040 – 24,960 levels. On the upside, resistance is expected around the 25,260 – 25,350 zone.

Despite the short-term weakness, the broader trend remains positive, and buying interest is likely to emerge near the key support zone of 25,230 – 24,955. Meanwhile, stock-specific activity is expected to dominate market movements.
