The Nifty opened lower and momentum on the downside intensified as the day progressed which led nifty to close in red. On the daily chart, we are observing two consecutive bear candle which indicates that selling is likely to continue. Further, we are observing that prices tested the rising 200-days SMA (23545) but managed to close marginally above it. In the coming trading session if nifty trades below 23500 level then it may test 23440 - 23370 levels. On the upside, 23640 - 23715 may act as resistance for the day.

Since, prices have breached 23800 we are of the opinion the trend on the downside has intensified. Hence, one needs to adopt cautious approach at current level.
