Market Technical Outlook

The Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart, we are observing an upward gap area in the range of 22468 to 22695. Normally upward gap area does act as support for the prices. At present, 22957 is immediate resistance for the day. In coming trading session if nifty trades above 22900 levels then it may test 22957(immediate resistance) – 23030 levels. On the downside, 22710 – 22630 levels may act as support for the day.

Since prices are trading well below the 50-days SMA (22957) one needs to adopt cautious approach at current level.
