## Market Technical Outlook

The Nifty opened on a subdued note, witness selling pressure as the day progressed which led nifty to close in red. On the daily chart, we are observing that prices have closed below the rising 50-days SMA (25093). Even, the breath of the market remains negative. Hence, in coming trading session if nifty trades below 24728 level then it may test 24650 – 24540 levels. On the upside 24850 – 24960 levels may act as resistance for the day.

At present, we are witnessing that nifty has close below the demand zone of 24753 to 25130 level. Hence, one needs to adopt cautiously approach at current level.
