# **Market Technical Outlook**

The Nifty opened lower and momentum on the downside intensified as the day progressed which led nifty to close deep in red. On the daily chart, we are observing two consecutive bear candle which suggests weakness. In coming trading session if nifty trades below 24300 then it may test 24210 - 24150 levels. On the upside 24440 - 24510 levels may act as resistance for the day.

Since, prices are trading above the rising 200-days SMA (23790) & below the falling 50-days SMA (24386), one needs to adopt cautiously positive approach at current level.
