Source: Money Control (BSE 500)

The Nifty opened higher but witness selling pressure during the day which led nifty to close in red. On the daily chart after a "Doji" candlestick pattern we are observing a spinning top pattern which gives small clue that the preceding downtrend is losing breath. Further, we are observing that prices have closed below the rising 200-days SMA (23565). In coming trading session if nifty trades below 23400 level then it may test 23340 – 23270 levels. On the upside, 23540 – 23615 may act as resistance for the day.

Since, prices have close below the rising 200-days SMA(23565) we are of the opinion that one needs to adopt cautious approach at current level.
