Market Technical Outlook

The Nifty opened higher traded in a narrow range throughout the day to close in green. On the daily chart, we are observing six consecutive narrow range body formations which suggests indecisiveness prevailing at current level. In coming trading session if nifty trades above 23400 level then it may test 23450 - 23560 levels. On the downside, 23240 – 23130 levels may act as support for the prices.

Since prices are still trading below the 200-days SMA (23974), one needs to adopt cautious approach at current level.
