Market Technical Outlook

The Nifty opened higher traded with positive bias throughout the day to close in green. On the daily chart, we are observing an inside day formation which has close below the rising 200-days SMA (23841). In coming trading session if nifty trades above 23800 then it may test 23870 - 23950 levels. On the downside, 23630 - 23560 levels may act as support for the day.

At present, prices are still trading below rising 200-days SMA (23841) & below the falling 50-days SMA (24300), one needs to adopt cautiously positive approach at current level.
