Source: Money Control (BSE 500)

The Nifty opened lower and traded in a very tight range for the day. On the daily chart, we are observing two consecutive narrow range body formation & prices trading below 100- day SMA this suggests indecisiveness prevailing at current level. Hence, in the coming trading session if nifty trades below 24350 level, then it may test 24310 – 24220 levels. On the upside 24480 - 24550 levels may act as resistance for the day.

Since, prices are trading well below the rising 50-days SMA (25122) hence one needs to adopt cautiously approach at current level.
