Market Technical Outlook

The Nifty opened lower recovered some of its losses during the day to close marginally in red. On the daily chart, we are observing two consecutive narrow range body formation with lower low which suggests weakness. In coming trading session if nifty trades below 22500 then it may test 22440 – 22360 levels. On the upside, 22660 – 22720 levels may act as resistance for the day.

Broadly, looking at the current price action it is evident that that prices are making lower lows formation. Hence, one need to adopt cautious approach at current level.
