Market Technical Outlook

The Nifty opened with a positive note and traded with positive bias throughout the day. On the daily chart, prices closed above short-term moving averages & holding "Upward gap area" which indicates continue we can see consolidation with stocks specific action. In the coming trading session if nifty trades above 24350 level, then it may test 24390 – 24450 levels. On the downside, 24210 – 24150 levels may act as support for the prices.

Since, prices have close above the rising 200-days SMA (23603) for two consecutive trading session. Hence, we are of the opinion that one needs to adopt cautiously positive approach at current level.
